Now you've got a smarter way to bank.

In today's fast-paced and ever evolving world, Scotiabank understands that your time is important and you need smarter, faster banking. That's why the Bank is the first to introduce Intelligent Deposit Machines (IDMs) to Barbados to better meet your needs, so you'll have more time to do things you want to do.

At the recent launch of the new IDMs, Scotiabank Managing Director, Caribbean East, Mr. David Parks, shared his thoughts: "We're very excited to have these devices in Barbados as ATMs are a very important channel for us. We aspire to be the Bank that provides the very best digital and overall experience to surpass our customers' expectations, and our continued investment in new technology such as these next generation ATMs helps us to achieve that."

Now at Warrens and Haggat Hall Branches, Scotiabank's specially designed Intelligent Deposit ATMs will soon be rolled out to other locations so that you'll be able to enjoy a wider range of self-service transactions:

Say Goodbye to Envelopes

With envelope-free cash and cheque deposits, dropping off funds is a breeze. You'll be able to see a scan of your deposited notes and/or cheques onscreen so you can verify that everything is fine. And for added

peace of mind, you'll even have the option to print a photo of the cheque on your receipt for proof of deposit.

Pay Without Paper

The Bank has removed those bill payment vouchers and made it easier for you to pay bills and transfer funds. In just a few simple steps, the Intelligent Deposit ATM lets you send money to anyone from your saved list of Scotia OnLine or Telescotia payees. That's it!

A Fresh, New Look

Scotiabank has put the "you" in user-friendly by providing you with a better and more seamless self-service banking experience through an improved menu design, enhancing the way you interact with the Bank's IDMs.

Convenience You Can Bank On

Need a mobile top up? You can do it right at Scotiabank's IDMs. Plus, with other self-service options, including generating mini statements, checking account balances and more, smarter banking is truly at your fingertips.
