World Environment Day 2014 Art Competition

'Raise your voice not the sea level!'

Guidelines and Rules

To teachers/guardians/parents:

Encourage your child to enter our competition and create a design to depict the theme above! Winning entries will be used to create stickers or other promotional materials to raise awareness about Climate Change and its impacts on Small Island Developing States (SIDS) like Barbados.

The United Nations Environmental Program has stated that

“The global sea level has risen by about 10 to 25 cm. (up to about 10 inches) over the last 100 years. Sea level rise is attributable to global warming. Humanity's greenhouse gas (GHG) emissions are leading to changes in climatic patterns.”
