

Investing and creating opportunities for the future.

Scotiabank Beneficiary Stories: Edward

Edward Charles is the owner of Bajan Naturals and he is one of seven winners in the latest Barbados Entrepreneurship Foundation \$20 Challenge. He makes soaps, scrubs, candles, lotions, lip balms and eye cream. Coming home after school and making products that are natural and organic is a therapeutic process for him and he sees this as a great way for him to express his creativity. His mom was very supportive throughout his journey and that was very important to him. One of the products he had the most fun making was his lemon and poppy seed soap.

“ Making my own business was definitely something I wanted to do and I hope that having a corporate entity like Scotiabank promote this initiative inspires other young children to participate. – Edward, \$20 Challenge winner ”

Scotiabank (Barbados) Limited has been supporting the Barbados Entrepreneurship Foundation (BEF) \$20 Challenge for almost a decade. The programme fosters an entrepreneurial spirit among young people and we are so pleased to help them to develop and pursue their passion.
