

SCOTIABANK (BARBADOS) LIMITED

October 12, 2022

Scotiabank partners with WIRRED for day of Climate Action.

At Scotiabank, we believe that long-term economic growth must co-exist with strong environmental action. In keeping with this belief, we're proud to collaborate with the Walkers Institute for Regenerative Research Education and Design (WIRRED) on its flagship initiative, One Tree for Every Bajan programme.

Our employees supported a day of Climate Action at Walkers Reserve on Oct 9, as we work towards ensuring a sustainable future for Barbados. They participated in a beach clean-up of Walkers Beach, one of the most popular nesting sites for leatherback turtles in Barbados. Eighty-five trees and plants were also placed in the ground at Walkers Reserve.

Scotiabank employees and their families during the Beach Clean Up and Tree Planting activities.
